

Gods Hotel: A Doctor, a Hospital, and a Pilgrimage to the Heart of Medicine

For readers of Paul Kalanithi's *When Breath Becomes Air*, a medical â€œpage-turnerâ€• that traces one doctor's â€œremarkable journey to the essence of medicineâ€• (The San Francisco Chronicle). A San Francisco Laguna Honda Hospital is the last almshouse in the country, a descendant of the HÃ´tel-Dieu (God's hotel) that cared for the sick in the Middle Ages. Ballet dancers and rock musicians, professors and thievesâ€”â€œanyone who had fallen, or, often, leapt, onto hard timesâ€• and needed extended medical careâ€”ended up here. So did Victoria Sweet, who came for two months and stayed for twenty years. Laguna Honda, relatively low-tech but human-paced, gave Sweet the opportunity to practice a kind of attentive medicine that has almost vanished. Gradually, the place transformed the way she understood her work. Alongside the modern view of the body as a machine to be fixed, her extraordinary patients evoked an older idea, of the body as a garden to be tended. God's Hotel tells their story and the story of the hospital itself, which, as efficiency experts, politicians, and architects descended, determined to turn it into a modern â€œhealth care facility,â€• revealed its own surprising truths about the essence, cost, and value of caring for the body and the soul.
