

Travelers Guide to Apostasy

The purpose of this mini-book is to guide the reader through the emotions experienced on the journey from faith in God, to apostasy. It is my hope that you can identify where you are in this journey and realize that the feelings you have are not unique. They are feelings experienced by all of us bold enough to obtain a ticket to freedom! Although each journey will be unique depending on your background, personal resolve, family issues and a multiplicity of other factors, everyone making this journey will experience, to some degree, most of the emotions discussed. The journey from Faith to Apostasy is not easy. I have noticed that it is much like the journey of grief. After all, the main problem faced is the loss of something that was extremely important in our lives. Our beliefs define whom we are. They define our purpose in life. When these beliefs change, we have to rediscover our purpose and examine the things that now define us. Who are we without our belief in God? The loss of faith often causes new, deeper questions, to rise to the surface. What begins as initial searching for truth can sometimes end up being a fight for mental survival and emotional stability. As I view comments made by Christians and apostates alike on my Facebook page and other pages I participate on, I grow concerned about the anger, guilt and sometimes fear that makes its way into their comments. It is my hope that some of the things I share in this book may assist you to move through these things and discover the freedom and joy of being truly

free. I was raised in a strong evangelical Christian home. I always believed. Like most children, I believed because my parents did. Taking these beliefs into adulthood, I became a full time Pastor and Preacher in my late teens and served God for more than 15 years. I realize that this is not the background every Christian has. Many people become believers later in life after facing some personal tragedy or emotional conversion. No matter how you came to believe, leaving these beliefs is heartbreaking and satisfying, painful and rewarding all at the same time. I am also writing this anonymously to avoid facing the personal attacks from Christians and Church leaders who feel justified in doing so. I have no wish at this time to embark on pointless debates or arguments, and the endless attempts to convince me of my impending and eternal damnation. I simply do not have time for it. I am aware that my anonymity may dilute what I share in this book, and if that is the case, so be it. My own personal journey from Faith to Apostasy took more than 10 years of soul searching, research, doubt, fear, doubt, more soul searching and research until I finally resolved that I was on the right path. A path which for me led to only one ultimate conclusion. There is no God. Ex Preacher © January 2013
