

2012: Biography of a Time Traveler: The Journey of Jose Arguelles

Although time (and not too much of it) will tell, I suspect that Jose will be honored as one of the most important thinkers in human history. --Daniel Pinchbeck What if someone told you that you were living in the wrong time and that the unparalleled catastrophes of the world were largely due to an erroneous perception of time? Would you believe it? 2012: Biography of a Time Traveler is the authorized biography of Jose Arguelles, the man who first introduced the date December 21, 2012 into mass consciousness with *The Mayan Factor*. The initiator of the Harmonic Convergence global peace meditation of 1987, Arguelles is also the founder of the annual Whole Earth Festival (1970) in California, and one of the originators of the Earth Day concept. Following a life-changing vision at age 14, atop the Pyramid of the Sun in Teotihuacan, Mexico, Arguelles began a lifelong journey to discover the underlying mathematics and prophecies associated with the Mayan calendar. 2012: Biography of a Time Traveler is an engaging journey through the inner and outer realms of this visionary. As the story unfolds, you will follow Arguelles through many startling synchronicities and transformations of consciousness. Through his epic saga, you may see that every detail of your own life is also precisely designed, down to the most seemingly mundane circumstance. By uncovering the Mayan codes, Arguelles discovered the telepathic nature of time. He also

realized that the human species is living in artificial time, which is disrupting its planetary environment and destroying its civilization. This book sheds light on the crisis our planet is undergoing today and offers clues about how we can realign with natural time to make a peaceful transition on December 21, 2012. Jose Arguelles life and work is in itself a causal work of art. He conceives. He expresses. He creates what he sees! He is a genius in the imaginative realm. His life and initiatives have already changed our world and illuminated us with new realities now happening. Barbara Marx Hubbard author of *The Revelation and Conscious Evolution* 2012: Biography of the Time Traveler helps us understand not only Jose Arguelles as a leading luminary of our times, but also helps us go beyond clock (machine time), which keeps us enslaved in the matrix. Jose's valiant and visionary quest, as described in this biography creates the artistic and inspirational metaphors for helping us become socially, psychologically, psychically, and ultimately spiritually liberated as we transition from the predatory culture of death into the heart-centered, inter-dimensional consciousness, and natural flowing Culture of Life. Rabbi Gabriel Cousens, MD, Director of the Tree of Life Rejuvenation Center, author of *Spiritual Nutrition* An informative, loving, and thoroughly enjoyable introduction to the life and vision of one of the greatest minds of our time. Ervin Laszlo, Founder and president of The Club of Budapest, author *Science and the Akashic Field*
