PREVIEW
It has taken 25 years of research and development to create this encyclopedia, with the hope for International Scientific Awareness, Inter-Faith Understanding, Sustainable Technological Innovation and a much desired World Peace. A Research into Scientific Experimentation / Empiricism (Ulm al TMitibar) and Origins, Attitudes, Values and

Rejuvenation of Islamic Science along with its implications on Sustainable Development and new energy technologies. Paradigm shifting scientist and author, Gabriel Iqbal, translates his visions into pragmatic disciplines by reviewing the entire history of Experimental Science and links with scientific pragmatism, human emancipation and consciousness, sustainability and coexistence. The origins and sustainable ethical applications of practical empirical scientific method are rooted in the Golden Age of Islam. A thousand years of Science, Technology and Civilization in Islam (800 - 1800) and its implication for Sustainable Development in a modern context is elaborated. This illustrated encyclopedia is also available as an option with large poster prints of the illustrations in this encyclopedia for usage as a supplement to the Educational Science Curriculum and Science Museum Exhibitions. Optionally 60+ Colour Coded Posters are available with this research for use in Schools, Universities and Museums. The posters can be displayed permanently on the hallways, classrooms, libraries and laboratories and will highly improve the students visual appeal, learning ability and knowledge of Science and Civilization in Islam along with Proactive Solution Oriented Research and Innovation Capability for Ethical Scientific Thinking, Global Leadership, Sustainability and above all a Responsible and Sincere attitude towards World Peace. Science curriculum based projects are also included. An extended bibliography is available to supplement this research. The research in this encyclopedia is a

form of "Civilized Science" that can perhaps save us from our current challenge of evolving from a gregarious species to a coexisting one. The goal is to work collectively as part of a world community and re-engineer Scientific Ethics and Principles for the betterment of the Global Human Condition and a Sustainable Future that works in Harmony with the Balanced Phenomena of Natural Law. Visit our official website to discover films, documentaries and latest multimedia resources related to Islam, Science, Sustainable Technological Innovations, Renewable Energy, Interfaith Education, Well-being, Coexistence and Consciousness
