Leonard Delaney's Digital Desires Inbox contains three stories of close encounters with technology. Taken by the Tetris Blocks When blocks started falling from the sky, Christie Aackerlund welcomed the excitement. Now she's having a bad day at work, and craving some fun and games. Luckily, she runs into some Russian blocks that are looking to score. Soon, she'll be the one falling in lust. Conquered by Clippy Christie Aackerlund doesn't need help with anything. So when the world's biggest technology company offers to fly her to a remote location and investigate an alien artifact, all by herself, she'll do it! But the artifact isn't what it seems, and soon an overly helpful giant living paperclip is getting her all bent out of shape. Invaded by the iWatch Christie Aackerlund loves technology, so she is happy to try out a smartwatch prototype that mysteriously arrives at her door. When she asks the watch how it can make her less lonely, she has no idea how many sensual features are packed into the tiny device. Discover how a forbidden sexual romance between a woman and a watch is possible. Cry out in joy at guest appearances from your favourite technology personalities. Squirm at a twist ending to the first Digital Desires trilogy that will leave you uncomfortably aroused.
