

Breaking The Tax Code 2nd Edition

America is a land of taxation that was founded to avoid taxation ~ Dr. Laurence J. Peter However, unless they're on the lunatic fringe, any American adult who has not filed an income tax return is not smoking Marlboros. That leaves most of us as regular filers - and mostly scared to death of ever sitting kneecap-to-kneecap with an IRS Agent. Where does all of this leave this book? The Celebrity Experts® who authored this book wish to de-mystify the Tax Code for you. They come from many different areas of tax practice. They will relate experiences with their tax practices and add their advice for dealing with the Tax Code and the IRS for your information. You will be pleasantly surprised at their detail - and you probably will wish to discuss the relevant sections with your CPA/ Tax Accountant or Tax Attorney. We are all aware that tax evasion is illegal, but seeking to minimize one's income taxes according to the law is totally acceptable per the Supreme Court. The Celebrity Experts® within speak to many tax law topics of interest - ranging from those that apply to business people, professionals and divorcees, to those that apply to clergy, home-based businesses and retirement planning - among many others. You will learn from these professionals, and if necessary, you may even want to contact them. All in all, Breaking The Tax Code - Second Edition is educational, entertaining and profitable.
