

HOSPICE TAILS: The Animal Companions Who Journey With Hospice Patients And Their Families

Funny, sad, and irreverent, Hospice Tails shares the stories of pets who traveled to the door of death with their humans. Meet King, an abused pit bull fiercely loyal to his rescuer, Jasper and Jackie, Amazon parrots who sang their person to his final sleep, Washington, a golden retriever who became the only connection to the world for an Alzheimers patient, and ten other animals who accompanied their beloved people on the hospice journey.
