

Great Exploration Hoaxes (Modern Library Exploration)

Did Peary reach the North Pole? Was Admiral Byrd the first to fly over it? Did Frederick Cook actually make the first ascent of Mt. McKinley? Spanning 450 years of history, *Great Exploration Hoaxes* tells the spellbinding stories of ten men who pursued glory at any cost even the truth. Acclaimed author and explorer David Roberts delves deeply into the psychology behind the stunt and asks why these individuals, all of whom were exceptionally able, would perpetrate fraud on such a grand and public scale and defend it to their deaths, even in the face of damning evidence, and why these dubious achievements are still so hotly debated, often hundreds of years afterward. Demonstrating that the qualities that brought an individual so close to his goal were often the same ones that drove him to fake success, *Great Exploration Hoaxes* is history at its best: entertaining, provocative, and revealing of human nature. David Roberts is the author of thirteen books, the most recent of which are *A Newer World: Kit Carson, John C. Fremont, and the Claiming of the American West* and *True Summit: What Really Happened on the Legendary Ascent of Annapurna*. He was also responsible for the rediscovery of the lost Arctic classic *In the Land of White Death*, by Valerian Albanov, published in English for the first time in 2000 by The Modern Library. In the 1960s and 1970s, Roberts led or co-led thirteen Alaskan mountaineering expeditions, making such first ascents as the west face of Mount

Huntington, Shot Tower, and the
direct north face of Denali.
