

365 Additional Quotations for Atheists, Agnostics, and Secular Humanists (Quote Books)

This June 28, 2013 update contains many new quotes plus duplicate quotes have been deleted. Great care was taken to eliminate any duplicate quotes both within this book and my other quote books: Over 365 Quotations for Atheists Agnostics and Secular Humanists and my third quote book: Humorous Quotations and Jokes for Atheists Agnostics and Secular Humanists.

All three have been combined into The Big Book of Quotations for Atheists Agnostics and Secular Humanists first published on June 26, 2013. In addition to containing all of the quotes in the first three books, it includes all the quotes organized alphabetically by author.

Understand that inclusion of an author in this volume does not mean that he/she is a non-believer. The only requirement is that the quote was memorable and something my intended audience (of non-believers) would find interesting. This book includes quotes that would be enjoyed by atheists, agnostics and secular humanists. It is not meant for the faithful. Please read the table of contents and the preview the sample before purchasing if you're not sure. While writing my book, The 12 Unthinkable Horrors of Human Existence, I assembled a lot of great quotes for atheists, agnostics and secular humanists. I discovered that I had enough for three books. To create this list I have spent hundreds of hours reading dozens of books, listening to debates, watching YouTube videos and searching the Internet. In addition, I have

included original quotes not found anywhere else. In this second edition I have focused on shorter quotes rather than the long ones, which are more like essays. All quotes organized by topic and sorted with the best first. While information is readily available from a number of sources my goal is to save the reader time and effort weeding out the chaff from the wheat, the very memorable from the easily forgotten. Note that Kindle E-books can be updated anytime so occasionally delete the version on your Kindle and download the most current version. I am sure I will be updating all my quote books several times this year. It is also convenient to have a quote collection as a great resource on your Kindle device, personal computer, Android phone or iPad. A version number and date is in the very front. Amazon only sends out notices where there is a major change so currently updating your book is a manual process. Enjoy this list of quotations and be sure to share with a friend, review it if you enjoy it, and please check out my other I. M. Probulos publications on Amazon.
