

## Until January: A Winter Novella

I have a happy life—a great career, wonderful friends, and a nice family (for the most part), but parents don’t like to let their single thirty-one year old daughters spend Christmas alone. Apparently, no matter how successful you might be in your career or how independent of a life you may lead, you can’t be trusted alone during the holidays. You might snap Fatal Attraction style and make rabbit stew for your married lover’s Christmas dinner. But I’m a vegetarian, and I don’t date married men, so my parents have agreed to let me spend this December by myself. I’m even looking forward to it—at least I was until HLG came back. HLG is short for Hot Lawyer Guy. I know his name, but it’s easier if I think of him as HLG because he’s my unattainable crush. Every woman has a mild obsession they need to kick, and he’s mine. If he would just go away for good, this December would be perfect.
