

Falls Arent Funny: Americas Multi-Billion Dollar Slip-and-Fall Crisis

Slip-and-fall accidents are a growing problem. The total cost of these accidents now approaches 80 billion dollars each year, and that number is expected to double within the next decade. In *Falls Aren't Funny: Americas Multi-Billion Dollar Slip-and-Fall Crisis*, author Russell J. Kendzior provides a comprehensive look at one of the most pervasive yet seldom addressed problems facing our world today. The book's three parts explore slip-and-fall accidents themselves, what causes them, and what can be done to prevent them. Kendzior begins by examining the financial costs, the industries hardest hit by slips and falls, and the heightened risk to the elderly population. He then looks at the causes for the numerous slip-and-fall accidents and injuries, from inadequate floor care to improper footwear, and the contributions of the insurance, legal, and manufacturing industries and how they worsen the problem. Finally, he outlines what can be done to prevent slip-and-fall accidents, and how everyone from manufacturers, to property owners, to the general public can help to reverse the trend of this increasingly expensive and dangerous problem. The book is replete with stories of real slip-and-fall accidents and injuries, up-to-date statistics, illustrative charts, and tips for prevention. It is comprehensive, dealing with all aspects of slip-and-fall accidents, their causes, and methods of prevention, while also being accessible and entertaining. It is

an informative and much needed book for all managers, safety professionals, attorneys, business and property owners, and anyone else concerned with one of the nations fastest growing safety crises.
