

The Shii World: Pathways in Tradition and Modernity (Muslim Heritage)

The world's 200 million Shi'ite Muslims express their faith in a multiplicity of ways, united by reverence for the ahl al-bayt, the family of the Prophet. In embracing a pluralistic ethic, fourteen centuries of Shi'ite Islam have given rise to diverse traditions and practices across varied geographic and cultural landscapes. The Shi'ite World is a comprehensive work authored by leading scholars from assorted disciplines, to provide a better understanding of how Shi'ite communities view themselves and articulate their teachings. The topics range from Shi'ite Islam's historical and conceptual foundations, formative figures and intellectual, legal and moral traditions, to its devotional practices, art and architecture, literature, music and cinema, as well as expressions and experiences of modernity. The book thus provides a panoramic perspective of the richly textured narratives that have shaped the social and moral universe of Shi'ite Muslims around the globe. This fourth volume in the Muslim Heritage Series will appeal to specialists and general readers alike, as a timely resource on the prevailing complexities not only of the Muslim world, but also of the dynamic Shi'ite diasporas of Europe and North America.
