

Saudi Clerics and Shia Islam

The Saudi ulama are known for their strong opposition to Shia theology, Shia communities in Saudi Arabia, and external Shia influences such as Iran and Hezbollah. Their potent hostility, combined with the influence of the ulama within the Saudi state and the Muslim world, has led some commentators to blame the Saudi ulama for what they see as growing sectarian conflict in the Middle East. However, there is very little understanding of what reasoning lies behind the positions of the ulama and there is a significant gap in the literature dealing with the polemics directed at the Shia by the Saudi religious establishment. In *Saudi Clerics and Shia Islam*, Raihan Ismail looks at the discourse of the Saudi ulama regarding Shiism and Shia communities, analysing their sermons, lectures, publications and religious rulings. The book finds that the attitudes of the ulama are not only governed by their theological convictions regarding Shiism, but are motivated by political events involving the Shia within the Saudi state and abroad. It also discovers that political events affect the intensity and frequency of the rhetoric of the ulama at any given time.
