

Apocalyptic Islam and Iranian Shiism (Library of Modern Religion)

Interest in Shii Islam is running at unprecedented levels. International tensions over Iran, where the largest number of Shii Muslims live, as well as the political resurgence of the Shii in Iraq and Lebanon, have created an urgent need to understand the background, beliefs and motivations of this dynamic vision of Islam. Abbas Amanat is one of the leading scholars of Shiism. And in this powerful book, a showcase for some of his most influential writing in the field, he addresses the colorful and diverse history of Shi Islam in both premodern and contemporary times. Focusing specifically on the importance of apocalypticism in the development of modern Shii theology, he shows how an immersion in messianic ideas has shaped the conservative character of much Shii thinking, and has prevented it from taking a more progressive course. Tracing the continuity of apocalyptic trends from the Middle Ages to the present, Amanat addresses such topics as the early influence on Shiism of Zoroastrianism; manifestations of apocalyptic ideology during the Iranian Revolution of 1979; and the rise of the Shii clerical establishment during the 19th and 20th centuries. His book will be an essential resource for students and scholars of both religious studies and Middle Eastern history.
