## KNOWLEDGE BOMBS

**You won't find any "F" Bombs here...EVER!**

What you will find is a wealth of what some people might call tiny tidbits of useless information while others call them something they didn't know or perhaps never even thought of. Regardless, we're going to explore some topics that we believe are valuable, educational and fun at the same time. Along with that we're going to ask some questions that you should, or at least could answer, that just might increase the enjoyment you get out of life.

Before I ever began putting words to paper and then to my keyboard I asked myself these two questions "Why am I writing this book and what do I hope the end result will be for my readers?" The answers came to me a short time later and the answers I came up with are as follows: #1 I want everyone who reads this book to be able to smile, remember fond memories, change things that need changing, grow in their lives and have fun while doing so. #2 Most of all though I want my reader to consider writing his or her own book recounting the thoughts they had while reading "Knowledge Bombs." Everyone has a book deep down inside of them and if you use this material as your catalyst there is no reason why you shouldn't be able to write your very own book. I can tell you from experience that there is nothing more rewarding than having your very first book published and read all over the world. Don't believe you can't do this. I am living proof that you can. I languished for years over whether or not I should write and finally decided that even if nobody ever read what I wrote it would be okay because I could at least say that I wrote my book. As it turned out thousands have bought and read my books all over the world and continue to do so to this day. So, if you are inspired by what I'm about to share with you please make notes as you read and then sit down and just begin writing. You'll be amazed at just how really easy it is to do. Here's some of what

youâ€™ll find inside: \*\*  
DIDJA?â€™NO! And interesting  
headline and a subject, once you  
read about it, that we think will  
entertain you while helping you  
remember a time when you did  
something you likely would never  
ever tell anyone about. Or maybe  
weâ€™ll trigger a memory that  
will make you smile. â€™\*\*  
WHAT WILL YOU TAKE TO  
YOUR GRAVE? Everyone has a  
special gift that theyâ€™ve been  
given. What is yours? Most  
importantly though the question  
should be â€™have you shared  
your gift with anyone or will you  
take it to your grave?â€™ \*\*  
WEAPONS OF MASS  
DISTRACTION: Each day we  
are bombarded with all sorts of  
distractions. They come from  
friends, fellow workers,  
television, radio and many other  
sources. How do you handle  
those distractionsâ€™or do you?  
\*\* DONâ€™T JUST SETTLE:  
Too many times in our lives we  
chose to settle for what is put  
before us. Should you? Do you?  
How can you change â€™just  
settlingâ€™ when there are other  
options to consider? \*\* WHAT  
IS YOUR MAGIC NUMBER?  
When your number comes up will  
you be ready? What number  
hides in the back of your mind  
that you are convinced is when  
something will happen to you, for  
you or around you that could or  
perhaps already did change your  
life? Mine number was 32 and  
Iâ€™ll explain more of that  
inside. \*\* STEPPING OUT: So  
what frightens you? Weâ€™ll  
explore some areas in life that  
people often avoid in order to  
keep relative order in their lives.  
Should they? Should you? Is it  
time for you to â€™Step Out?â€™  
\*\* TODAY I FEEL LIKE A  
WAFFLE HOUSE MENU ITEM:

One of my favorite restaurants in the South is Waffle House. They're always friendly when you enter and the food is fairly priced and delicious. Having said that though I also relate to WH because there are days when I feel like one of the menu items that they offer and that's what I'll discuss later on. I think you'll enjoy this one for sure. \*\* YOU CAN COPYRIGHT YOUR LIFE AND THAT'S A GOOD THING. When people write something they're always concerned about being able to copyright their material. I don't worry about that because in general you can't do anything about it anyway. I do of course put a copyright notice on my writings just to have a little bit of control but I also know that a violation of a copyright is going to happen once in a while, it's just how it is and if someone deems my writings worthy of stealing then good for them. I'm glad they enjoyed what I've written. In my case at least nobody would want to steal it anyway.
