

Multinational Business Finance (13th Edition) (Pearson Series in Finance)

Renowned for its authoritative, comprehensive coverage of contemporary international finance, this market-leading text trains the leaders of tomorrow's multinational enterprises to recognize and capitalize on the unique characteristics of global markets. Because the job of a manager is to make financial decisions that increase firm value, the authors have embedded real-world mini-cases throughout to apply chapter concepts to the types of situations managers of multinational firms face. The thirteenth edition attempts to capture the rapid evolution of our global marketplace through a number of principles, practices, and features.
