

Everest - The First Ascent: The untold story of Griffith Pugh, the man who made it possible

WINNER OF THE OUTSTANDING GENERAL SPORTS WRITING AWARD, BRITISH SPORTS BOOK AWARDSWINNER OF THE BOARDMAN TASKER PRIZEWINNER OF THE MOUNTAIN & WILDERNESS PRIZE, BANFF FESTIVALWINNER OF THE TONY LOTHIAN AWARD, BIOGRAPHERSâ€™ CLUBFor the first time, drawing upon previously unseen diaries and letters, rare archive material and interviews, Everest â€œ The First Ascent tells the remarkable story of Griffith Pugh, the forgotten team member whose scientific breakthroughs ensured the worldâ€™s highest mountain could be climbed. A doctor and physiologist, Griffith Pugh revolutionised almost every aspect of British high-altitude mountaineering, transforming the climbersâ€™ attitude to oxygen, the clothes they wore, their equipment, fluid intake and acclimatisation. Yet, far from receiving the acclaim he was due, he was met with suspicion and ridicule. His scientific contributions were, quite simply, at odds with old-fashioned notions of derring-do and the gentlemanly amateurism that dogged the sport. Later in his career, his impact in helping athletes enhance their performance lasts to this day in the fields of cycling, swimming and running. This insightful biography shows Pugh to be troubled, abrasive, yet brilliant. Eight years in the writing, closely researched, and told with unflinching honesty by

Pugh's daughter, Harriet Tuckey, Everest "The First Ascent is the compelling portrait of an unlikely hero.
