

# The Errors of Atheism

The Errors of Atheism is a response to the glaring gap that exists in analytical philosophy on the concept of God. While there is the large body of work that either defends or challenges orthodox Christian theistic arguments, there is a lack of analytical philosophical work articulating agnosticism as a critique of both theism and atheism. J. Angelo Corlett shows that the conceptual depths of theism must be explored beyond orthodoxy in order to re-open the debate on the problem of God. His book is an agnostics statement on the current state of the debate about Gods existence and where the discussion must go to make genuine philosophical progress instead of remaining in a dialectical stalemate.
