

Danger of Self-Love

This book analyzes the contemporary self-esteem movement from a biblical perspective. It discusses its secular philosophical and psychological backgrounds, explains how it has infiltrated the evangelical worldview, and examines the various arguments used to demonstrate that it is compatible with Scripture. It concludes that the concept of self-esteem propagated by secular and evangelical sources is not biblical, but instead is doing substantial damage to individuals and relationships. It offers and supports an almost universally overlooked alternative that is thoroughly biblical in nature and that promotes behavioral, emotional, and relational health. This book can be used effectively as a self-help manual, as a textbook, or as a personal guide to understanding contemporary culture.
