

Become a Public Speaking Champion in 1 Week: Learn the secrets of the most effective communicators

The goal of this book is to give the reader the tools and knowledge for improving their own public speaking and communication skills. The author details the experiences gained from numerous hours working with students and his own life experiences as a speaker. Each chapter of the book is structured similarly: First – breakdown of the specific area of communication. This includes defining the concepts, pinpointing the problem, and identifying the ideal solution to work towards. Second – examination of the techniques, frameworks, and ways to reach the desired solution. Third – conclusion with action items on how you can practice. -- A message from the Author: My name is Michael Young and I am a public speaking teacher. I help individuals improve their public speaking, presentations, job interviews, conversation, and overall communication skills. I have been developing my own skills and teaching public speaking for the past 14 years. My current and past students include professionals at large companies such as Microsoft and eBay, entrepreneurs, students in middle school summer programs, and high school and college students. I have taught students in person over coffee, in my living room, in sessions practiced online, and now I’m hoping to help more people through this book. Through this book, I detail the knowledge gained from working with students and my own life experiences. Motivation will be a key driver to your

success. By reading this book, you have already proven to yourself that you have the motivation needed to improve your life. I wish to help out those who can benefit from my experiences. I hope you find this meaningful and valuable.
