

Religion in Psychodynamic Perspective: The Contributions of Paul W. Pruyser

At his death in 1987, Paul W. Pruyser of the Menninger Foundation was widely recognized as one of America's foremost authorities on the psychology of religion. His book *A Dynamic Psychology of Religion* set the stage for creative dialogue on the subject. In this volume, two leading practitioners in the field present a compilation of Pruyser's seminal articles, providing an overview of the major themes in Pruyser's thought. Newton Malony and Bernard Spilka evaluate Pruyser's viewpoint and suggest how his position continues to influence the psychology of religion.
