

The Poetry of Healing: A Doctors Education in Empathy, Identity, and Desire

The healing powers of speech, of touch, of empathy and the erotic, of love itself - these are some of the themes of Rafael Campos deeply humanistic work, as he writes not just of his attempts to heal, but of how his patients have healed him. Throughout, he uncovers the truths of his own passions and fears, of the tragic flaws in health care, and of his education and life as primary-care doctor, poet, Latino, and gay man within the medical establishment.
