

# Going Godless: Rediscovering Spirituality in a Material World

Spirituality is not about spirits. Spirituality is a practice. It is the way we feed and groom that natural spirit we call the self-aware human consciousness. It is the way we relate to the world around us. If you have recently joined the growing ranks of nonbelievers, you have left a world defined by the religion of your culture. What do you leave behind when you abandon religion? Is atheism and agnosticism a spiritual dead-end? How do you find meaning, morality, and spiritual satisfaction in a world without God? Religion has been around as long as it has because it serves a real purpose, fulfilling real needs, regardless of the truth of the beliefs. As we take on a more scientific worldview, we tend to ignore those needs until we find ourselves in an existential crisis. Going Godless takes a look at spirituality redefined within the material world around us, the world we know exists. Whether you are atheist, agnostic, deist, or simply don't subscribe to any existing religion, you are faced with going through life without a rule book handed down by God. Going Godless draws from the author's™s thirty years as an atheist in a theistic world to provide an important perspective on the human experience.
